

Activity Packet #1 School Days

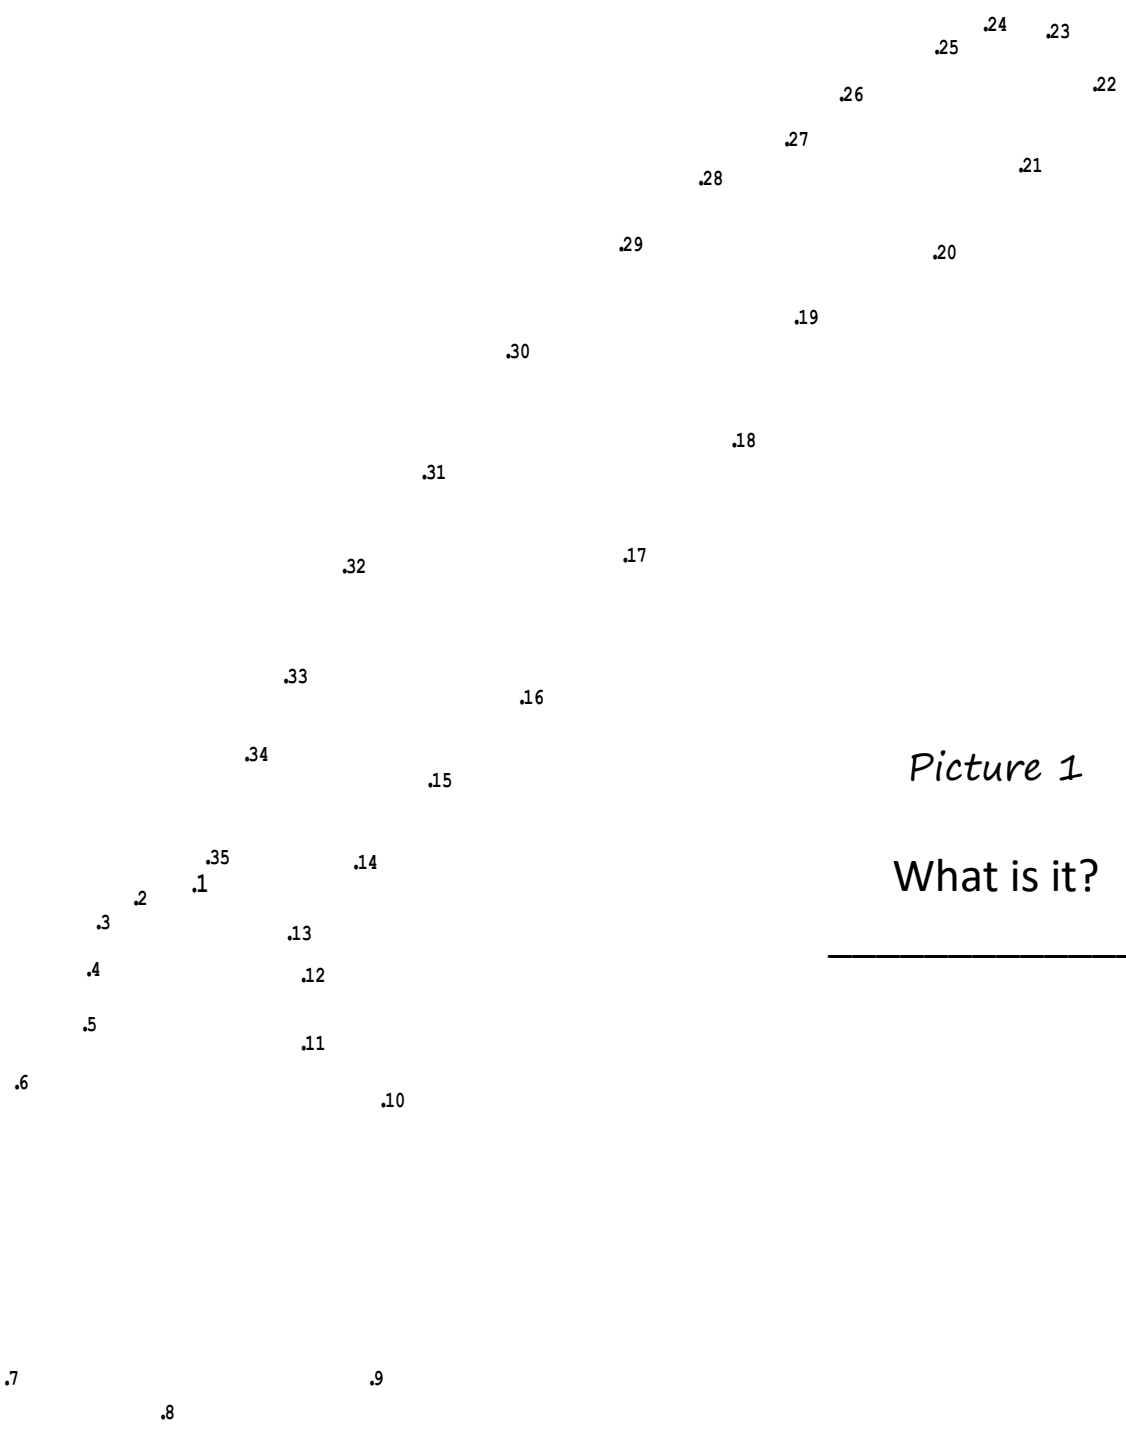

Can you imagine going to school in a building with only one room? If you lived a long time ago, that's probably what your school would look like! You'd be in the same room with lots of kids that were a different age than you and one teacher would teach everyone. You'd learn mostly arithmetic (math), reading, and spelling. You'd probably walk to school and take your lunch in a pail. You'd practice writing and school work on a chalkboard or slate and do your final copy on paper using a quill pen.

Explore the one room school by finishing the scene, sorting pictures, dot to dots, and more!

Use a pencil and write on the chalkboard below.
Will you practice math facts, writing letters or words,
or something else?

Connect the dots to reveal special pictures!
Add the rest of the pictures using your pencil and color!
